MEMORANDUM FOR: THE DIRECTOR

I have run off a clean draft of your memorandum for General Doolittle with certain changes which are indicated by underlining. The change in paragraph 1 is merely to tie in with the first line of paragraph 2. The first change in paragraph 4 merely substitutes the word "which" for a longer phrase. The second change in paragraph 4 adds a phrase following the language of the statute to emphasize the responsibility of the Clark group to congressional policy rather than administrative needs. Similarly, in paragraph 5 I have added words emphasizing that the Doolittle group is looking to the end product while the Clark group deals with organization and methods. Mr. Kirkpatrick has seen and agrees with these changes. Your draft is also attached.
